

K-LOVE provides a level of radio that is unsurpassed by any other station I have ever heard, with its uplifting message and music that helps in coping with this crazy world. If K-LOVE were to be replaced with an LPFM station of different programming, the community at large would suffer greatly in the absence of the positive message that K-LOVE provides. Without the love and positivity of K-LOVE, the public would be missing out on very important and vital coping skills for the world in which we live.
